## WORK EXPERIENCE

### Telsa Media, Web Designer | May 2024 - Dec 2025

- As a Web Designer at Telsa Media, my primary role is to create visually appealing and fully responsive websites. I specialize in designing and developing websites using WordPress, HTML, CSS, and JavaScript, ensuring that they function seamlessly across all devices.
- **Front-End Development** – Using **HTML, CSS, JavaScript, Bootstrap, Tailwind, WordPress** to enhance the website's functionality and design.
- **Responsive Web Design** – Crafting websites that adapt to different screen sizes for an optimal user experience.
- **Cross-Browser Compatibility** – Ensuring the website performs consistently across various browsers.

### Tenacious Techies, Web Designer | Feb 2022 - Apr 2024

- I worked as a Web Designer, where I was responsible for creating responsive and user-friendly website designs. I specialized in using HTML, CSS, Bootstrap, and WordPress to develop modern and visually appealing web layouts that adapt to different screen sizes. My role involved ensuring seamless design consistency, optimizing website performance, and enhancing user experience through clean and efficient coding.

## PROJECTS

### 8848momos, Restaurant E-commerce Website | [View](#)
